➤ to conform with all applicable federal, state, and other legal requirements;
➤ to adequately safeguard principal;
➤ to provide sufficient liquidity to meet all operating requirements;
➤ to obtain a reasonable rate of return

DELEGATION OF AUTHORITY

The governing board's responsibility for administration of the investment program is delegated to the treasurer who shall establish written procedures for the operation of the investment program control structure to provide a satisfactory level of accountability based on a data base or records incorporating description and amounts of investments, transaction dates, and other relevant information and regulate the activities of subordinate employees.

PRUDENCE

All participants in the investment process shall seek to act responsibly as custodians of the public trust and shall avoid any transaction that might impair public confidence in the County to govern effectively.

Investments shall be made with judgment and care, under circumstances than prevailing, which persons of prudence discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the safety of the principal as well as the probable income to be derived.

All participants involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions.

DIVERSIFICATION

It is the policy of the County to diversify its deposits and investments by financial institution, by investment instrument, and by maturity scheduling.
INTERNAL CONTROLS

It is the policy of the County for all money collected by any officer or employee of the government to transfer those funds to the Treasurer within 30 days of deposit, or within the time period specified in Law, whichever is shorter.

The Treasurer is responsible for establishing and maintaining an internal control structure to provide reasonable, but not absolute, assurance that deposits and investments are safeguarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management’s authorization and recorded properly, and are managed in compliance with applicable law and regulations.

In the event that the securities are not registered or inscribed in the name of the local government, such securities shall be delivered in a form suitable for transfer or with an assignment in blank to the County or its Custodial bank.
The custodial agreement shall provide that securities held by the bank or trust company, or agent of and custodian for, the local government, will be kept separate and apart from the general assets of the custodial bank or trust company and will not, in any circumstances, be commingled with or become part of the backing for any other deposit or other liabilities. The agreement should also describe that the custodian shall confirm the receipt, substitution or release of the securities. The agreement shall provide for the frequency of revaluation of eligible securities and for the substitution of securities when a change in the rating of a security may cause eligibility. Such agreement shall include all provisions necessary to provide the local government a perfected interest in the securities.

B. The Purchasing Agent, and any other officer or employee of Herkimer County authorized to make or recommend purchase of goods and services, in cooperation with the Purchasing Agent, shall, in all appropriate cases, survey the marketplace to determine the probable cost of any goods and/or services required by the County. </tr>
</tbody>
</table>

E. The above policies apply also to the Highway Department except that the requirement to consult with the Purchasing Department applies only to purchases requiring the specific authorization of the Legislature.

III. AWARDING PURCHASES

A. Proper documentation is required when the quote is not awarded to the vendor giving the lowest price. Quotes will be awarded to the lowest responsible and responsive vendor providing the goods are of equal values.

B. Use of alternative purchasing methods including NYS Contracts, Contracts of other New York State Municipalities, "Piggybacking" on other governmental contracts, federal contracts, cooperative purchasing, preferred source, sole source and emergency purchases shall be governed by the provisions of New York State General Municipal Law, Sections 103, 104 or 104-B or State Finance Law, Section 162 or other applicable provisions of law and properly documented.

C. Best Value: The specific non-price criteria to be used for Best Value purchases must be detailed in the price solicitation and the analysis of the resulting quotes or bids using the specified criteria must be documented. The documentation should include cost benefit analysis where possible. Award for purchases can then be made to the bidder deemed to be the Best Value to the County with all of the aspects of the Purchasing Policy remaining the same, as per Herkimer County Local Law.
IV. A. All purchases of goods or services (except transcription services, utilities, unscheduled repairs and otherwise authorized services) require a purchase order. Contracts up to $10,000 may be signed by the department head provided all other purchasing policies, laws and resolutions of the Legislature are complied with and documented. All such contracts must be reviewed by Purchasing Department for compliance with Purchasing Policy prior to signing.

V. PROFESSIONAL SERVICES PROCUREMENT POLICY

Purchases of professional services, which are not required to be bid by State law, shall be governed by the following principles and practices:

A. Contracts shall be executed for professional services, when appropriate, to delineate the services to be rendered and the method and amount of payment.

B. Staff who seek approval to purchase professional services must seek to generate proposals to perform these services that are as appropriate to the County's needs and as cost-competitive as possible, by use of RFP's or RFQ's, etc. RFQ's may be used prior to RFP's or independently.

C. The process to be followed in each new or renewal contract for professional services shall be proposed by the departmental staff person responsible for the services to the appropriate committee of the Legislature. The Purchasing Department must be copied (except for Highway fund requests) prior to consideration and approval by the appropriate Committee. The hiring of those professionals may be authorized by the appropriate committee up to $10,000. The full Legislature must approve professional services over $10,000 annually or if additional funds must be appropriated (such as with grants).

D. Where alternative quotes or proposals are obtained, awards to an entity other than the lowest proposer must be properly documented with the rationale/reason for rejection of the lowest price.

E. For certain types of procurements of professional services, the solicitation of alternative proposals or quotations would not be in the best interest of the County, for example, highly specialized services for which the number of qualified and available professionals is limited. In those instances, the hiring of those professionals may be authorized by the appropriate committee up to $10,000 annually. The full Legislature must approve the contract if over $10,000 annually without alternative quotes or RFP's after presentation to the committee of the justification for such a determination with the appropriate documentation.

F. Any and all procedures not specifically addressed in this policy shall be governed by Section 103 or 104-b of the General Municipal Law.
VI. Any purchases of goods or services from an employee of Herkimer County or an immediate family member must be approved by the appropriate committees of the Legislature in addition to all other requirements.

VII. The following employees are authorized to make general purchases for Herkimer County

The following procedures will be incorporated and in addition to the Herkimer County Purchasing Policy.

STANDARDS OF CONDUCT

- No employee, officer, or agent will participate in the selection, award, or administration of a contract supported by federal monies if he or she or any member of his or her immediate family is employed or about to be employed, or a partner, officer or agent in the contracting organization or has a financial or other interest in or will receive a tangible personal benefit from a firm considered for the contract.

- Measures must be taken to avoid any duplicate or unnecessary purchases of services, equipment or supplies.
- Look for opportunities to consolidate or split up purchases to save money or time and document your findings.
- Weigh the options of leasing and purchasing to discover which is more economical.
- Utilize State and Federal contracts to obtain the best aggregate pricing.
- Investigate State and Federal surplus auctions.

COMPETITION

- Procurements must be conducted in a manner providing full and open competition.
- In order to eliminate unfair competitive advantages the following restrictive practices are prohibited:
  - Placing unreasonable requirements on firms in order for them to qualify to do business
  - Requiring unnecessary experience and excessive bonding
  - Noncompetitive pricing practices between firms or between affiliated companies
  - Noncompetitive contracts to consultants that are on retainer contracts
  - Organizational conflicts of interest
  - Specifying a "brand name" product instead of allowing an equal product to be offered and describing the performance or other relevant requirements of the procurement
  - Any arbitrary action in the process.
PROCUREMENT METHODS

- Purchases up to $3,000 (Micro Purchases)
  - The purchase of supplies or services where the aggregate amount does not exceed $3,000 should follow normal Herkimer County Purchasing Policy procedures.
- Purchases between $3,000 and $150,000 (Small Purchases)
  - Procedure should be based on existing Herkimer County Purchasing Policy procedures.
- Purchases over $150,000
  - Sealed bids
    - Complete, adequate, realistic specifications
    - Two or more bidders must be willing and able to compete for the business
    - The procurement must lead to a firm fixed price contract and selection must be based on price.
  - Competitive Proposals
    - Used when conditions are not appropriate for sealed bids
    - Requests for proposals must be publicized and identify evaluation factors and their importance.
    - Must be solicited from an adequate number of sources
    - Must have a written method for technical evaluations and selection
    - To be used for qualifications based procurement of architectural/engineering professional services
  - Non-Competitive Proposals
    - Proposal from only one source
    - The item or service is only available from one source
    - An emergency for the requirement will not permit a delay resulting from competitive solicitation
    - After solicitation from a number of sources, competition is determined inadequate.

SMALL, MINORITY AND WOMENS BUSINESS ENTERPRISES OR LABOR SURPLUS FIRM

- Affirmative action steps must be taken to assure that minority and women owned enterprises and labor surplus area firms are used whenever possible.
  - Place small and minority businesses and women owned businesses on solicitation lists
  - Assure small and minority businesses and women owned businesses are solicited when they are potential bidders.
  - Divide contract requirements into smaller tasks or quantities to permit maximum participation
  - Establish delivery schedules that encourage small and minority businesses and women owned businesses
  - Utilize the Small Business Administration and the Minority Business Development Agency and the Department of Commerce
  - Require prime contractors to take affirmative steps when dealing with subcontractors.
RECOVERED MATERIALS

- Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act, requires Political Subdivisions to procure only items designated in the guidelines of the Environmental Protection Agency at 40 CFR part 247. Items exceeding $10,000 in purchase price or value, must contain the highest percentage of recovered materials consistent with maintaining a satisfactory level of competition.

CONTRACTS COST AND PRICE

- Every procurement in excess of the Simplified Acquisition Threshold ($150,000) must have a cost or price analysis including modifications to existing contracts. An estimate should be created before proposals are solicited.
- Profit must be negotiated as a separate element of the price for contracts in which there is no price competition and in every case where cost analysis is performed.
- Costs or prices based on estimations are only allowable to the extent that costs incurred or cost estimates included in negotiated prices are allowable if the County has requested prior approval which should include the timeframe or scope of the agreement and be submitted not less than 30 days before the requested action is set to occur.
- Adjustments to the indirect cost rates resulting from a determination of unallowable costs being included in the rate proposal may result in the reissuance of the negotiated rate agreement.
- Financial records, supporting documents, statistical records and all other records pertaining to the award must be retained for a period of three years from the date of submission of the final expenditure report, or, for awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report, as reported to the Federal awarding agency or pass through entity in the case of a sub recipient. The following exceptions apply:
  - If a litigation, claim or audit is started or filed in the three year period, records must be kept until it has been resolved.
  - When notified by the Federal Agency to extend the retention.
  - Records for real property and equipment must be retained for 3 years after disposal.
  - If records are transferred to or maintained by the Federal awarding agency or pass through entity.
  - Program income transactions after the period of performance must be retained starting from the end of the County’s fiscal year in which the program income is earned.
  - Negotiated indirect cost rate proposals, cost allocations plans and similar reports must be retained for the 3 year period from the date of submission.
  - Non negotiated reports must be retained for 3 years from the end of the fiscal year covered by the plan.
FEDERAL AWARDING AGENCY OR PASS THROUGH ENTITY REVIEW

- The County must make available upon request the technical specifications on proposed procurements where the Federal awarding agency or pass-through believes such a review is needed to ensure the item or service is the one being proposed.
- The County must make available pre procurement documents when:
  - Procurement procedures or operations fail to comply with standards
  - The procurement exceeds the Simplified Acquisition Threshold and is to be awarded without competition
  - The procurement specifies a "brand name"
  - The contract is to be awarded to any other than the low bidder
  - A modification changes the scope of a contract or increases the amount by more than the Simplified Acquisition Threshold
- The County may request a review to ensure compliance with the standard.
- The County may "self-certify" its procurement system, however, such certification must not limit the Federal agency’s right to survey the system.

BONDING REQUIREMENTS

- The County bonding policy for construction or facility improvement contracts or sub contracts exceeding the Simplified Acquisition Threshold may be accepted by the Federal awarding agency if they make the determination that the Federal interests are protected.
- Bids must contain a bid bond, certified check or other negotiable instrument equivalent to 5% of the bid as a guarantee
- Performance bonds covering 100% of the contract must be issues in the event the contractor defaults.
- Payment bonds covering 100% of the contract to ensure payment of all persons supplying labor and materials.

REQUIREMENTS FOR PASS THROUGH ENTITIES

- The County may receive concurrent Federal awards as a recipient, a sub recipient and a contractor depending on its agreements with the Federal Agency and pass through entity. A determination must be made on a case by case basis whether agreements made for distribution of program funds cast the party receiving the funds in the role of a sub recipient or a contractor.
  - Sub recipients – the County must identify:
    - Name
    - Entity identifier (EIN)
    - Federal Award Identification Number
    - Period of performance
    - Amount of Federal Funds Obligated to the sub recipient
    - Total amount of Federal funds obligated to the sub recipient including the current award
    - Federal award project description
    - Name of the Federal awarding agency, pass through entity and contact information of awarding official of the pass through entity.
• The dollar amount of each Federal award and the CFDA number at the time of Disbursement
• Whether the award is R & D and indirect cost
• All requirements imposed by the County on the sub recipient so that the Federal award is used in accordance with Federal statutes, regulations and the terms and conditions of the award.
• Any additional requirements to meet the County’s own responsibility to the Federal Agency
• An approved federally recognized indirect cost rate negotiated between the sub recipient and the Federal Government, or if no rate exists, the rate negotiated between the County and the sub recipient
• A requirement that the sub recipient permit the County and auditors to have access to the sub recipients records and financials as necessary
• Appropriate terms and conditions concerning closeouts.

• The County must evaluate each sub recipient’s risk of noncompliance for the purpose of determining the appropriate monitoring which may include factors such as:
  o Prior experience with same or similar sub awards
  o Previous audit results
  o Changes in personnel or systems
  o Results of the Federal Award agency monitoring – if sub recipient receives other awards

• The County should consider imposing specific conditions upon the sub recipient if appropriate

• The County should monitor the activities of the sub recipient to ensure the sub award is used for the intended purpose and goals are achieved by:
  o Monitoring financial statements and performance reports
  o Follow up on deficiencies notes through audits, review and other means.
  o Issue a Management Decision for findings pertaining to the award

• The following monitoring tools may be helpful to ensure proper accountability and compliance:
  o Providing sub recipients with training and technical assistance on program related matters
  o Performing on site reviews of the sub recipients program operations
  o Arranging for agreed upon procedure engagements

• The County should verify that every sub recipient is audited as required by Subpart F – Audit requirements set forth in 200.501

• The County should consider whether or not the sub recipients audit results, on site reviews or other monitoring indicate conditions that necessitate adjustments to the County’s own records.

• Take enforcement action against non-compliant sub recipients as described in 200.338.

**CONTRACT PROVISIONS**

• The County contracts must contain the applicable provisions described in Appendix II to Part 200, Contract Provisions for Non-Federal Entity Contracts (attached).

APPENDIX II TO PART 200—CONTRACT PROVISIONS FOR NON-FEDERAL ENTITY CONTRACTS UNDER FEDERAL AWARDS

Effective: December 26, 2014
Currentness

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non-Federal entity under the Federal award must contain provisions covering the following, as applicable.

(A) Contracts for more than the simplified acquisition threshold currently set at $150,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

(B) All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement.

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction.
completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no labor or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

(G) Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

   Committee on Ways & Means

WHEREAS, the County of Herkimer has, for many years, enforced the collection of delinquent real estate taxes pursuant to Real Property Tax Law, Article 11, Title 3, Foreclosure of Tax Lien by Proceeding In Rem; and

WHEREAS, Real Property Tax Law Section 1138, provides methods to withdraw parcels of property from foreclosure and in certain instances, cancel said taxes; and

The Department will not pay for transportation of the body or crematory fee. The Hospital or Medical Center normally pays these fees.

ADDITIONAL CHARGES:

The Department will pay the cost of one grave (capped at $500.00) and the cost of opening and closing of the grave (capped at $650.00, stillborn capped at $400.00) as long as the cemetery is located in Herkimer County (and is limited to the amount charged during regular operating hours of the cemetery). If a plot is already owned and is located outside Herkimer County, prior approval will be needed for opening/closing to be paid by our agency. Any additional cemetery charges above the allowed caps will be at the expense of any interested friend, relative, or other non-legally responsible party.

The Department will not pay the opening and closing of a grave for cremation.
The Department will pay, when pre-authorized, for use of a metal casket or over-sized casket. The funeral home must provide a copy of the receipt for the over-sized casket and DSS will pay the difference between the cost of the over-sized casket and the cost of the standard cloth casket, which is already included in our full burial cost. This extra amount will be capped at $300.00.

The Department will pay winter vault charges (capped at $75.00), and concrete rough box (capped at $600.00) when required by the cemetery.

Transportation shall be reimbursed at the rate of $1.50 per loaded mile, and shall be limited to the confines of Herkimer County (unless prior approval is granted).

CONDITIONS:

All resources of the decedent, surviving spouse, and parents (if decedent is under the age of 21) must be applied toward funeral expenses and deducted from the above rates. This includes any property currently owned, or transferred to a relative within three (3) years. If there is a mortgage on any property, the applicant must provide the current assessed value and amount owed (the difference will be counted as a resource as home equity).

A vehicle registered and titled to the decedent or spouse will be counted as a resource unless it is the only vehicle in the household and the surviving spouse requires it for employment or daily living purposes.

Any request for monetary donations solicited by family, friends, or in any obituary will result in denial of burial assistance by our department. *This includes any social media website such as GoFundMe.

If any legally responsible party wishes to contribute funds in order to upgrade a casket or any other service provided under this policy, burial assistance will be denied.

PAYMENT:

Final eligibility determination and subsequent payment shall be made by the department within 60 days from the date of application provided all required documentation has been submitted. Any resources of the deceased (or legally responsible relative) uncovered after that time period will be recoverable by the department.

The Funeral Home must submit the following documentation within 6 months from the date of application or approval of burial assistance may be denied:
1. DSS voucher detailing each charge. Voucher must be signed by the Funeral Director or requesting party on the back.
2. Copy of Death Certificate or Transcript of Death for an infant.
3. Copies of receipts for any and all charges.
