

INTRODUCING . . .

NY Bridge Plan

NY's Pre-Existing Condition Insurance Plan

Administered by **GHI, an EmblemHealth Company**

In March 2010, Congress passed the health care reform law, the Patient Protection and Affordable Care Act. The law created a temporary program until January 2014 that makes coverage available for individuals who have a pre-existing medical condition, have not had insurance for six months, and who are legal US residents.

This new program is called the Pre-Existing Condition Insurance Plan (PCIP) and will be available throughout the country. In New York State, the PCIP plan is the NY Bridge Plan, administered by GHI, an EmblemHealth company.

PCIP plans will operate until the year 2014. At that time other provisions of health care reform will go into effect and state health benefit exchanges will be available for individuals to purchase coverage.

The NY Bridge Plan provides “a bridge” of health insurance from October 1, 2010 until January 1, 2014 for uninsured New Yorkers with pre-existing medical conditions.

NY Bridge Plan: Comprehensive Health Coverage for Eligible New Yorkers Through an Extensive Network of ... at Special Rates

NY BRIDGE PLAN

... is New York State's Pre-existing Condition Insurance Plan (PCIP), providing individual coverage to eligible New Yorkers with a pre-existing health condition who have not had health coverage for at least six months. Once a person is enrolled, there is no waiting period and coverage for medical services begins immediately. This program is administered by Group Health Incorporated (GHI), a state-wide insurance carrier providing quality health insurance to New Yorkers since 1937.

COMPREHENSIVE HEALTH COVERAGE

The NY Bridge Plan covers a broad range of services, including primary and specialty care, inpatient and outpatient hospital care, and prescription drugs, as well as assistance from professional nurses and caseworkers to help members manage chronic conditions and maintain overall health.

FOR ELIGIBLE NEW YORKERS

To be eligible to apply, you must:

- Be a legal US resident
- Be a resident of New York State
- Have one or more pre-existing medical condition(s) listed in this brochure, and
- Not have had health care coverage for the last six months.

There is no minimum age to qualify — even newborns may be enrolled if they meet the eligibility requirements. However, once you turn 65 years of age and have Medicare coverage, you will no longer be eligible for the NY Bridge Plan. Applicants who transfer from another state's PCIP program will be eligible if they are a resident of New York and have less than a 63 day lapse in coverage from their prior PCIP coverage.

Quality Doctors and Hospitals

THROUGH AN EXTENSIVE NETWORK OF QUALITY DOCTORS AND HOSPITALS

The NY Bridge Plan is an Exclusive Provider Option (EPO), which means that you must use doctors and health care providers who are in the GHI EPO network, except in cases of emergency or when care is not available through a participating provider.

The GHI network provides access to:

- 100,000 quality doctors
- More than 172,000 provider locations in the tristate area, and
- Most of the region's leading hospitals.

To see if a doctor is in the NY Bridge Plan network, check the doctor search at: www.nybridgeplan.com, or call **1-877-444-9622**.

... AT SPECIAL RATES

With the NY Bridge Plan, your eligibility is not based on income. In fact, the NY Bridge Plan offers premium rates that are significantly lower than other individual coverage, plus low copayments and no deductibles. Premium rates are standardized depending on where you live:

- Upstate New York counties — \$362 per month
- Downstate New York counties — \$421 per month

These rates are for individuals only, as there is no family or dependent coverage offered with the NY Bridge Plan. If other family members qualify, they may also apply for coverage separately. Accepted members will be billed individually and be fully responsible for paying the monthly premium.

PROOF OF PRE-EXISTING MEDICAL CONDITION

With your NY Bridge Plan application, you will be asked to provide one of the following as proof of at least one pre-existing medical condition listed in this brochure:

- Letter from a health care provider that specifies that you have one of the eligible medical conditions.
- Current medical records that specify that you have one of the eligible medical conditions.
- Copy of online personal health record with your name on it that specifies that you have one of the eligible medical conditions.

APPLY TODAY: ENROLLMENT IS ON A FIRST-COME, FIRST-SERVED BASIS

Eligible applicants will be notified in the order that their applications are received. Completed and approved applications received by the 15th of the month will be effective the first day of the next month. For those received after the 15th, coverage would be effective the first day of the month after the following month. If the NY Bridge Plan reaches capacity, a waiting list will be established.

To learn more, call **1-877-444-9622** or go to **www.nybridgeplan.com**.

As a new member, you will receive a welcome call explaining member benefits, followed by a consultation with a nurse to help you assess your health care needs, establish a care management plan, and find the right network doctor or medical provider.

READY TO ENROLL?

Eligibility Specialists are available to answer your questions and to offer enrollment assistance. Call the NY Bridge Plan toll free from 8:30 am to 5:30 pm, Monday through Friday at **1-866-NY-EZ-APP (1-866-693-9277) TDD 1-877-448-4975**.

PCIP is partially funded by the federal government and subject to federal regulations established under the Patient Protection and Affordable Care Act. New York State has designated GHI to administer PCIP in New York. PCIP is not commercial health insurance underwritten by GHI.
