The Long Range Transportation Plan (LRTP) is a 20-year planning vision that identifies transportation goals, needs, funding, and trends for Herkimer and Oneida Counties. The Plan helps ensure that infrastructure and services needed to support the mobility of our community through the transportation network are anticipated and available, now and in the future. The plan is updated every 5 years to ensure that federal transportation funding is programmed in a responsible, collaborative and coordinated manner.

WE WANT YOUR INPUT!
Your Plan, Your Voice
Your input is critical to ensure it reflects the unique character, values, and shared vision of ALL Herkimer and Oneida County residents. Help our planners understand the growing and changing needs of this dynamic two-county community.
